REPORT
OF THE
COMPTROLLER
OF THE
STATE OF FLORIDA
FOR THE
Year Ending December 31, 1912

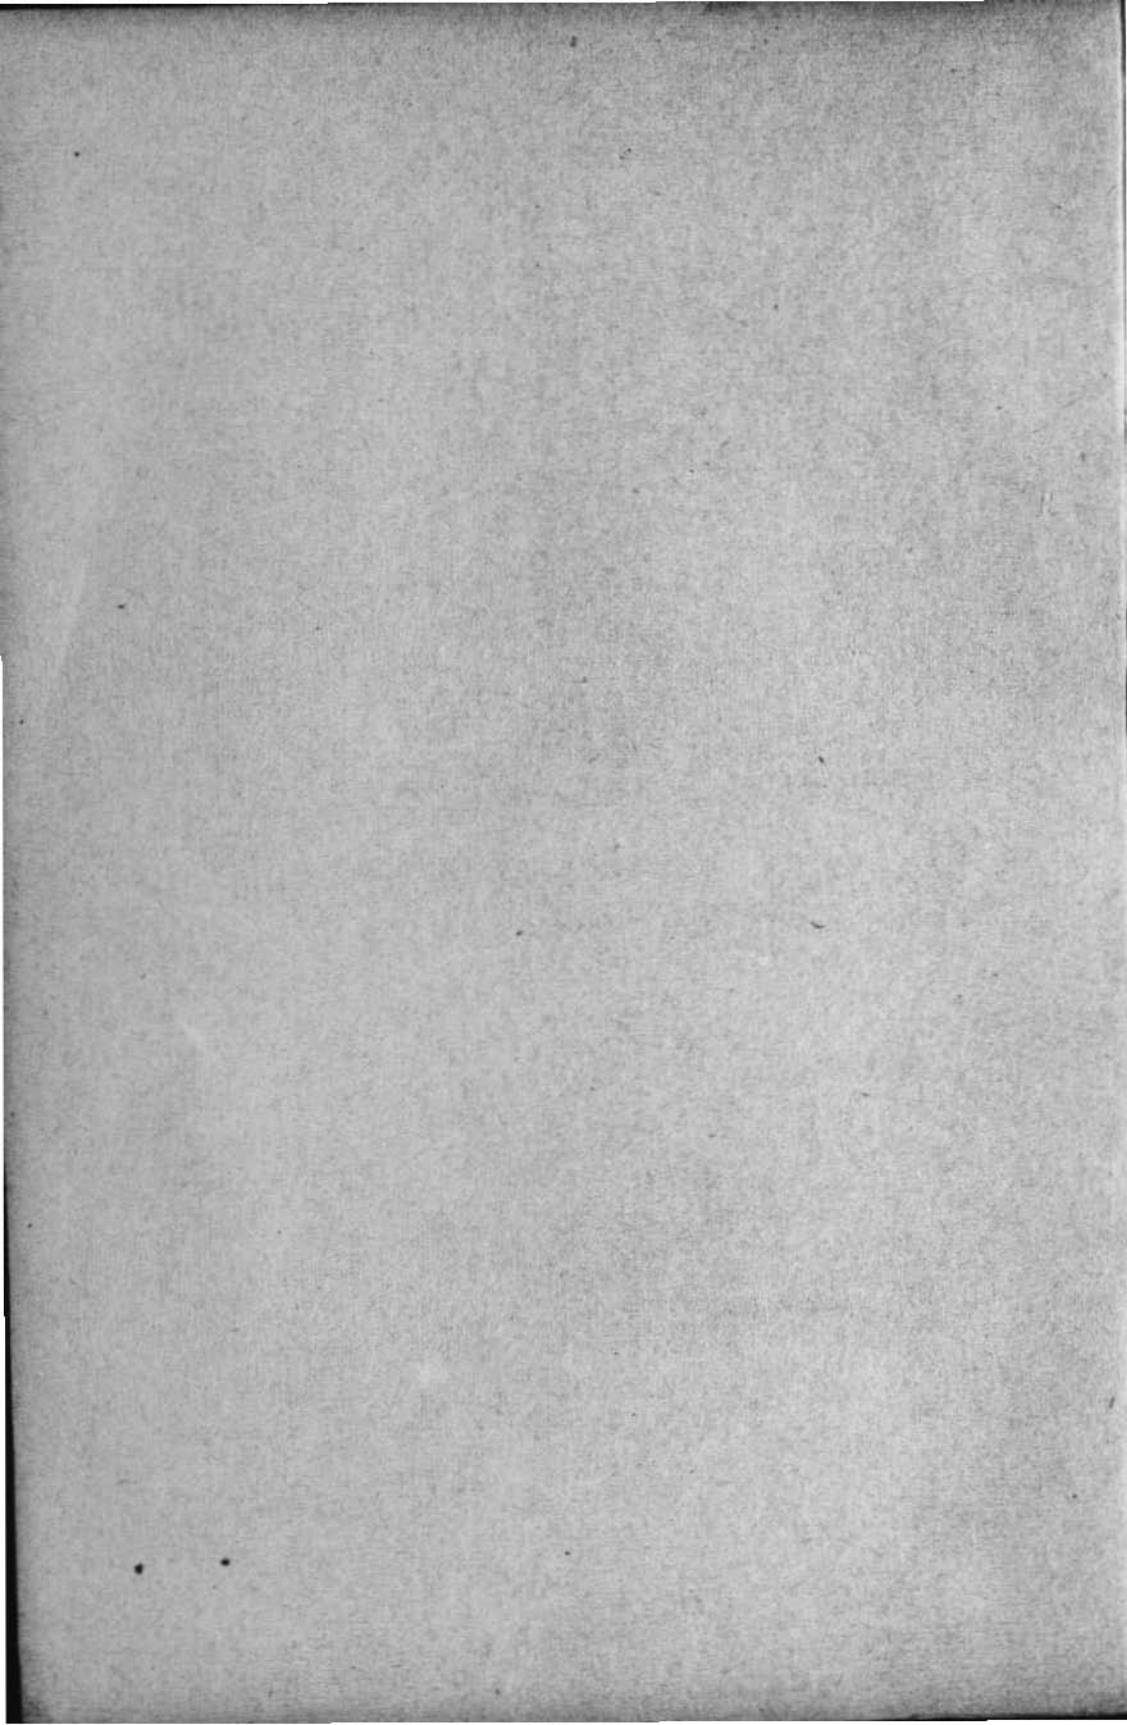

W. V. KNOTT, Comptroller

**T. J. APPLEYARD, STATE PRINTER,
TALLAHASSEE, FLA.**

Office of State Comptroller,
Tallahassee, Fla., January 1st, 1913.

Hon. Albert W. Gilchrist,
Governor of Florida.

Sir:—

In accordance with the requirements of law I have the honor to submit herewith my report of the transactions of this office for the fiscal year ending December 31st, 1912.

INCREASE IN ASSESSED VALUATION.

It is a source of satisfaction to note the progress of the State during the past ten years which is evidenced by the steady increase in the valuation of property for assessment purposes. The accretion in values thus shown is not the result of intangible conditions that are brought about by inflated values, but represents the actual increase in value as ascertained by the several County Tax Assessors who are on the ground and exercise their own judgment in arriving at such increase subject to the action of the County Commissioners of each County when sitting as a Board of Equalizers.

The total assessed valuation
in 1912 was\$212,887,518.00
And in 1902 the total assessed valuation was 103,047,937.00
Showing an increase of\$119,839,576.00

It will be seen that the increase in ten years exceeded the total assessed valuation of the property of the State in the year 1902, and this indicates the advancement of

the material interests of the State as its splendid resources and the great adaptability of its fertile soil becomes better known.

TAXABLE VALUATION OF PROPERTY IN 1912.

The assessment rolls for the year 1912, show that the assessed valuation of property, was as follows:

Real Estate	\$140,200,555.00
Personal Property	38,407,759.00
Railroads	33,515,691.00
Telegraph Lines	516,302.00
Sleeping and Parlor Cars ...	247,211.00
	\$212,887,518.00

ASSESSMENT OF PROPERTY.

In my opinion it would be advisable that some method should be adopted that would place the levy and assessment of taxes more nearly in the hands of the authorities of the several counties and change to a great extent the present manner of raising revenue for the support of the State Government, and as far as possible leave the land and personal property for *Ad-Valorem* assessment by the counties, to the end that they may not be required to contribute to a common fund any further than is necessary, thereby enabling each county to regulate its own valuation and tax rate solely with the view of meeting its own necessities.

RETURNS AND STATEMENTS OF CORPORATIONS.

Sections 2659 and 2661 of the General Statutes of the State of Florida, provide that corporations shall make certain returns and statements to the State Comptroller,

giving the names of the stockholders and the number of shares owned by each and the par and market value of such shares and the whole amount of such capital stock and the amount actually paid in and also the real and personal property subject to taxation. The returns are to be made annually and the statements semi-annually or oftener whenever called for by the State Comptroller.

Under these provisions of the law only a very few corporations make returns or statements to this office, and as the penalty relates only to the returns, and can only be recovered in an action of tort for which action no provision is made, these sections of the law are practically in-operative and should be either amended so as to fully provide for the enforcement thereof, or repealed.

PENSION DEPARTMENT.

The lapse of time since the War between the States and the vicissitudes of life have gradually made inroads in the ranks of the gallant men who responded to the call of duty and their widows who were dependent upon them for support and those who survive are gradually feeling the infirmities incident to age and in many instances the wise provision of law for increase of pension, when total disability to earn a livelihood is shown, has been used.

When the question as to the payment of pensions was first presented to me it appeared that a change that would cause prompt payment thereof was due to the pensioners, and accordingly a system was adopted by which the warrants are mailed to the pensioners promptly upon receipt of the vouchers. Under the new system all warrants are sent out by the next mail after the receipt of the vouchers, and as the pensioners have become more prompt in sending in their vouchers the greater portion of the warrants are sent out within the first two days and the balance follow, without exception, by the succeeding mail after the receipt of the voucher. To accomplish this it

requires the entire office force to co-operate as far as necessary and pension payments are given every available moment that, even temporarily, can be spared from other duties. The payment of these claims and the large amount of entries, on record books, duplicate warrants, etc., is a severe tax at times, but the service is cheerfully rendered, and much satisfaction derived from the realization that the amounts sent out serve to relieve the necessities and contributes to the comforts of those who are in every way deserving.

That prompt payment has been greatly appreciated by the pensioners is evidenced by the number of letter of approval received at this office.

The report of the Pension Board will contain such statistical and other information as will enable the public to understand the operation of the pension law and appreciate the amount of work required, and the care that must be exercised both by the Board and this office.

BANKING DEPARTMENT.

Owing to the rapid increase of the business of this department and its magnitude and importance it has been deemed best to prepare a separate report, and your attention is respectfully invited to the report.

TRUST COMPANIES.

The amendment to the Banking Laws by the Act of 1911, Chapter 6155, of the Laws of Florida, has resulted in the incorporation, during the Year 1912, of several companies to conduct the trust business, and other companies are being formed for this purpose.

Owing to the recent organization of these companies, and the limited time in which they have been engaged in the business, no statistics can be published that would

be of benefit in determining the operation of the law and the question as to whether or not it will require amendment.

At the end of the present year, it is expected that some idea can be formed as to whether or not the law is adequate to meet the existing conditions.

The requirement that each trust company incorporated under the Act of 1911, shall deposit a sum equal to twenty-five per cent of its capital, and that the amount so deposited shall not in any case, be less than twenty-five thousand dollars, with the State Treasurer, is a wise provision, and it will create confidence in the minds of the people.

Such trust companies are authorized to discharge many and various delicate and responsible duties, and the examination and supervision thereof, will materially increase the work of this department, but the benefits that should be derived by the people from these additions to the financial institutions of the State will doubtless prove to be of more than sufficient importance to warrant the time and attention that will be required to see that the interests placed in their care and keeping are carefully safeguarded.

TAX CERTIFICATE DEPARTMENT.

The work in this department has recently been systematized under my direction, and the reports and records of tax sales rebound for preservation, and while doing so the reports were arranged by counties up to and including the sales made in the year 1911, and bound so that the sales for each county are bound separately and are easily accessible. In this way the work of the department has been facilitated and a distribution to the State and County-Treasurers is made each month.

The work of this department is of great importance as it involves in many instances the question of title to

land. This is especially true when the records of a county have been destroyed by fire, as has happened in a number of cases.

ASSESSMENT OF RAILROADS, TELEGRAPH LINES AND SLEEPING
AND PARLOR CARS.

The duty of preparing the blanks for returns of railroads, telegraph lines and sleeping and parlor cars and the assessment of such property, and making returns thereof to the counties, incorporated towns and special tax school and road districts is placed upon this office, and in the preliminary work special attention has been given to the preparation of the blanks for the returns required to be made to this office, to the end that the Board, created by Section 46, of Chapter 5596, of the Laws of Florida, consisting of the Comptroller, Attorney-General and State Treasurer, may have such full data as will be sufficient to enable its members to perform their duty in fixing the valuation with a clear understanding of the facts in each case.

It is the intention of the Members of the Board to discharge the duties imposed upon them with fairness and impartially, having in view a compliance with the law, and doing justice to both the State and the corporations in placing a valuation on the property.

LAPSE OF APPROPRIATIONS FOR SALARIES.

The Legislature of 1895 made appropriations to cover the salaries of the Governor, Cabinet Officers, Supreme Court Justices, Circuit Judges, State Attorneys, Clerks Administrative Department, and other State officials and employees for a period of two years from July 1st, 1895 to June 30th, of 1897. And the Legislature of 1897 provided, by Section 4 of Chapter 4518 of the Laws of Florida, "That all appropriations heretofore made for any of

the uses or purposes enumerated in previous Acts, shall only be available until June 30th, 1897 and that no warrant shall be drawn after that date for any such uses or purposes against any appropriation not embraced in this Act."

The salaries for the quarter ending June 30th, 1897 were not payable until July 1st, 1897, as all salaries are payable on the first day of the succeeding quarter, and by the operation of Section 4 of the Act of 1897, the amounts appropriated by the Act of 1895 for the quarter ending June 30, 1897, having been declared unavailable after June 30th, 1897, it became necessary to use the appropriation made by the Legislature of 1897 for the quarter ending September 30th, 1897, to pay the salaries due July 1st, 1897, thereby compelling the use of appropriations for the succeeding quarter in paying these salaries for each quarter thereafter, and the result of this is that for the quarter ending June 30th of each year that the Legislature meets, there is no appropriation provided, and the salaries can only be paid out of the appropriations made for the six months, beginning July 1st of each of those years.

After the salaries are paid April 1st, 1913, the appropriations by the Legislature of 1911 for that purpose, will be exhausted. And in doing so, the salaries from April 1st, 1911 to March 31, 1913, two full years will have been paid out of the appropriations made in 1911.

It will be seen that the quarter's salary that was cut off by the Legislature of 1897 is the cause of this condition, and to remedy this, it is desired that the Legislature of 1913 appropriate for an extra quarter's salary in addition to the regular appropriation for two years, and by so doing, there will be available appropriations July 1st, 1915 to pay salaries for the quarter ending June 30th, 1915, thereby preventing a lapse in the appropriations.

To do this it will not require one cent additional to be drawn from the State Treasury, because the appropria-

tions for the extra quarter should be in the same amounts for one quarter as were provided by the Legislature of 1911.

DUTIES OF THE COMPTROLLER'S OFFICE.

The duties of the Comptroller's office are so varied and complex that it would be difficult to convey an adequate conception of the scope and nature of the important financial transactions and the services that are performed by the different clerks in the office; however, it has been deemed proper to add to this report a short resume of the clerks employed and the work they do, as this information might be of interest to the Legislature and to the public.

The Comptroller has endeavored to maintain the office on the very highest plain of efficiency, and that is the watchword in every department of the office.

Some of the important duties of this office are enumerated below:

(1) All accounts against the State must be audited and vouchers examined in this office before the warrants are issued, and all payments from the State Treasury are made upon warrant from this office, based on Legislative appropriation.

(2) The accounts of all officers, both State and County, handling State money are kept in this office and statements of the same rendered the officials and also to the State Auditor.

(3) A copy of each Tax Assessor's book for each year is sent to the Comptroller's office and is carefully examined and filed. Information for the Legislature in regard to the totals of the various classes of taxes levied are collected from these.

(4) Railroad, telegraph and parlor and sleeping car assessments are made in this office, when the valuation

has been fixed by the Board consisting of the Comptroller, Attorney General, and State Treasurer and practically all of the taxes so assessed are collected through this office and distributed to the State Treasurer and to the County Treasurers. These assessments are made not only for the State but for the counties, sub-school districts and special districts levying special taxes and this data is also furnished incorporated cities and towns.

(5) All Tax Collectors report their land sales here, and these also have to be examined, tax sale advertisements from each county checked, and lists of lands sold for taxes furnished the County Assessors.

(6) The supervision and examination of State banks, private banks, and saving banks and trust companies devolves upon this office, the work of which is mentioned more fully in the report of the Banking Department of this office.

(7) The Pension Department of the State is placed in the Comptroller's office and all pension claims are filed here. The pension records and accounts are kept in this office and the quarterly payments made directly by the Comptroller. From 20,000 to 25,000 pension warrants alone are issued during a single year.

(8) The Tax Redemption Department of the office is intricate and complicated and can be understood fully only by one with experience in land matters and accounting, and who is thoroughly conversant with the laws governing this work. The records in this department are of lands that have been sold for taxes in past years, lands redeemed, and lands against which tax sale certificates are held. The receipts of this department embracing thousands of small items, amount to \$190,000 annually, which is distributed and paid into the State and County treasuries.

(9) All the blanks used by Tax Assessors and Collec-

tors in assessing, collecting and selling land for unpaid taxes, and those used by the Clerks of the Courts in connection with the redemption and sale of tax certificates, and payment of jurors and witnesses before the grand jury, as well as the tax assessment books of the Assessor and Collector, are prepared and furnished from this office.

(10) The laws applying specially to the assessment and collection of revenue, and laws governing banks and trust companies, are prepared in pamphlet form and furnished the officials for their convenience. The office is called upon daily for construction of doubtful phases of these laws. These constructions are carefully prepared, with legal advice from the Attorney General when needed, and the administration of the law made uniform throughout the State as nearly as possible.

(11) The Comptroller is a member of the following boards:

- (a) Board of Commissioners of State Institutions.
- (b) Board of Pardons.
- (c) State Canvassing Board.
- (d) Board of Finance.
- (e) Trustees Internal Improvement Fund.
- (f) Board of Drainage Commissioners.
- (g) Board of Pensions.
- (h) Board of Insurance Commissioners.
- (i) Board of Railroad and Telegraph Assessment.

Much of the time of the Comptroller is necessarily occupied with the work of these Boards, and while he keeps in touch with all the work of the office and devotes his personal attention to its supervision, it will be easily understood that detail work of the office must be entrusted to a considerable extent to the clerks.

THE CLERICAL FORCE.

The clerical force required to perform the numerous, responsible and delicate duties of this office must be above

the average in ability and be careful and diligent in their application to the duties assigned them. To facilitate the work, the clerks are not limited to any particular branch of work but work in a co-operative way, thereby avoiding delays in the work of the office and keeping all of the work of the office up-to-date at all times. Each clerk is impressed with the responsibility of his own department, and at the same time with the duty of assisting in any department in which a rush of work requires assistance.

The clerks in the Comptroller's office, some of whom have been in the employ of the office for years, are very efficient and it is a matter of pride to the Comptroller that he is able to commend them and their conscientious, capable performance of the clerical work. The work of the office is sufficient at all times to keep them busy, and they perform the work in a manner reflecting credit upon themselves and upon the office.

The names of the clerks employed, and the town or county from which they came is given below:

Chief Clerk—W. M. McIntosh, Jr., Tallahassee. (35 years in the office.)

Railroad and Telegraph Assessment Clerk—E. G. Chesley, Osceola county. (20 years in the office.)

Bookkeeper—G. E. McGriff, Gadsden county, 22 years in the office.

Warrant and Abstracting Clerk—W. S. Love, Quincy.

Pension Clerk—R. A. Gray, Havana.

Assistant Pension Clerk—St. Clair Wells, Tallahassee.

Assistant Auditing Clerk—R. H. Alligood, Wakulla county.

Recording Clerk—John G. Collins, Tallahassee.

Correspondence and Filing Clerk—Mrs. Ellie Maxwell, Jacksonville.

Auditing and Distribution Clerk, Tax Redemption Department—M. C. McIntosh, Alachua county.

Bookkeeper, Tax Redemption Department—J. P. Cobb, Brooksville.

Recording Clerk, Tax Redemption Department—C. A. Finley, Lake City.

Mailing Clerk and Messenger—W. E. Grissett, Leon county.

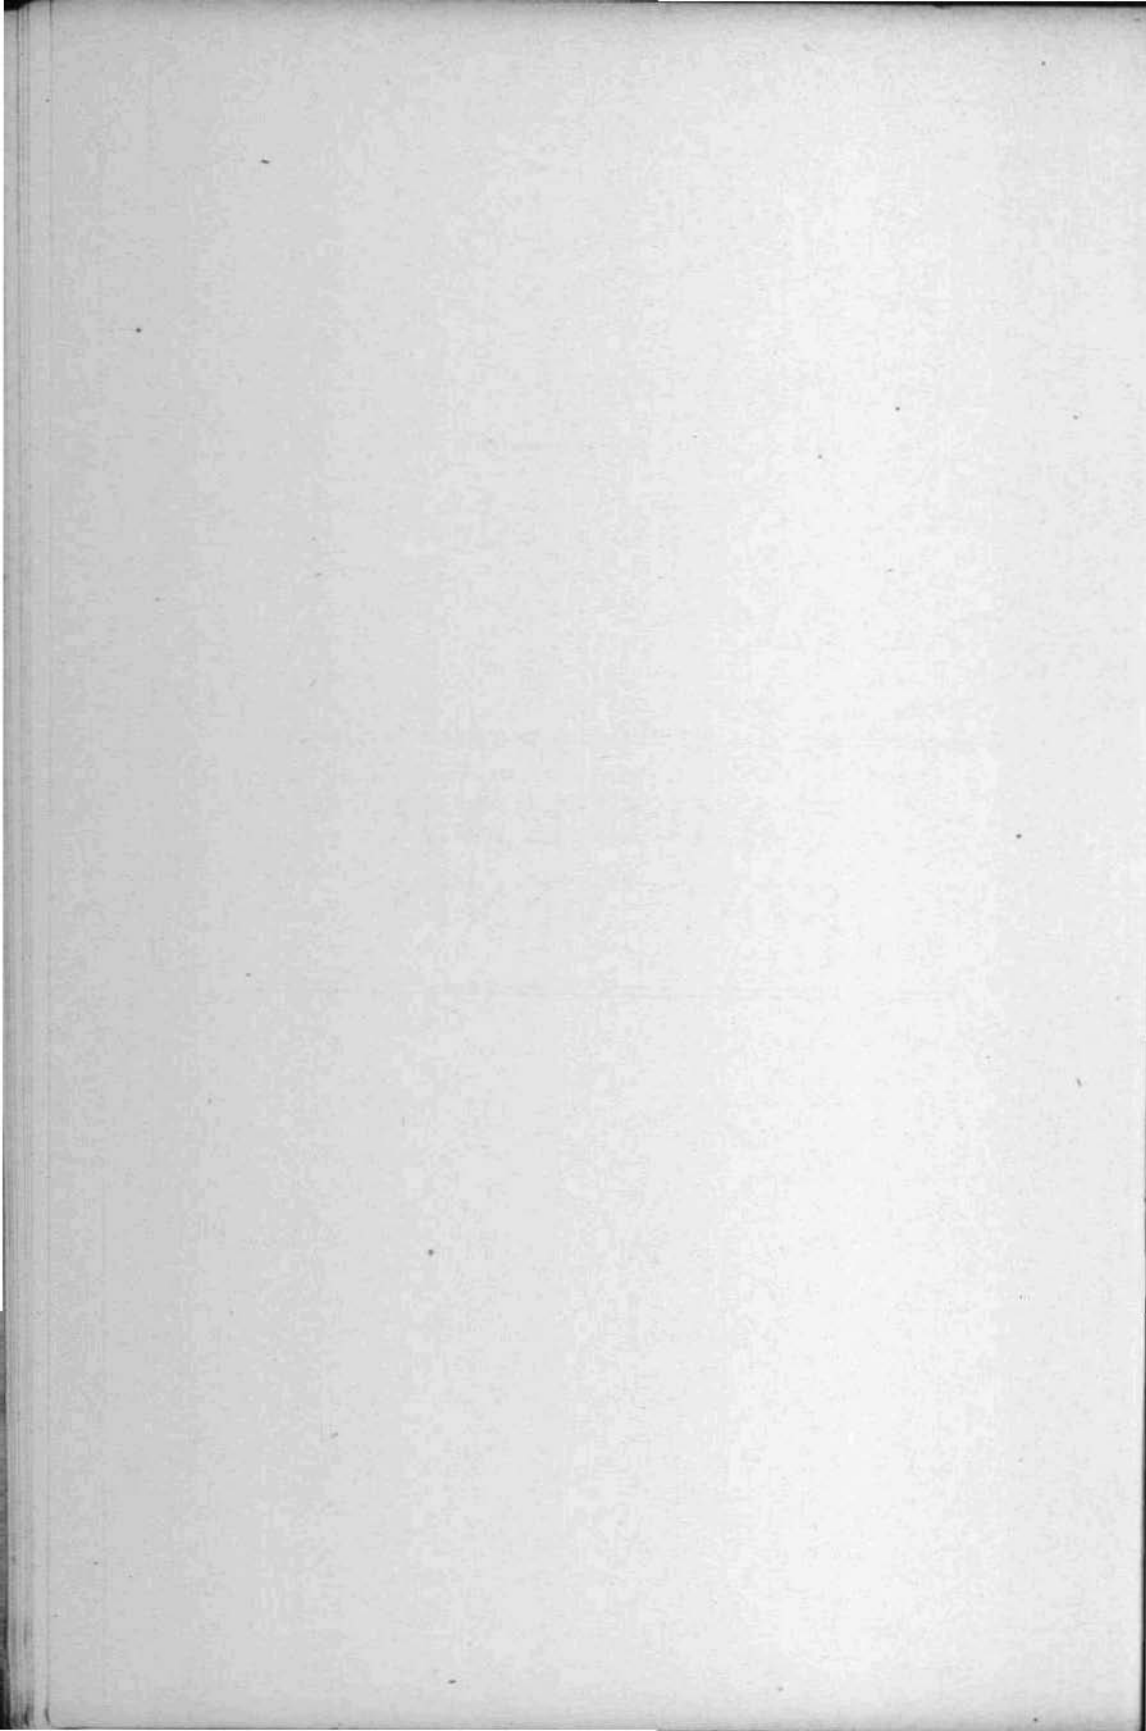

TABULATED STATEMENTS.

The tabulated statements hereto annexed, to which attention is particularly invited, indicate in part the varied duties that are placed upon this office, but an adequate conception of the multitude of details, and the care and skill required in the conduct of the affairs of the office, can only be understood and appreciated by personal observation and a thorough insight into the work performed.

Respectfully submitted,

W. V. KNOTT, Comptroller.
